DETAILED ACTION

Allowable Subject Matter

1. Claims 1-3, 5-15 and 20 are allowed.
2. The following is an examiner's statement of reasons for allowance: The prior art of record does not disclose predictively calculating product shortage number based on a comparison between a yield rate from the inspected result information and a prearranged yield rate; transmitting the inspected result information and the manufacturing number information from the product-inspecting company to the product-manufacturing company, where the access right has been established, via a network; nor recognizing the product-manufacturing company based on the manufacturing number information and establishing an access right allowing the product-manufacturing company to receive second coded information. The allowability, at least in part, resides in these facts.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
